

**Advisory Group on Finance
Report to Executive Committee
Date: 20 April 2017**

General Progress Report:

The AGF has been progressing with the three charges. To address the fee structure a survey was sent to all MOs to have obtain information about their fee structure, membership size and expenses. International organisations, health sector and others were also investigated. There was great variation amongst the respondents.

A second survey has been sent to gain understanding from MOs and RIGs re IFOMPT member benefits and expectations from membership. The AGF is going to recommend a cost benefit analysis be conducted and this will inform that process. Awaiting the results of the survey request before this is officially recommended.

A request has been made to the EC and ES regarding expenses to conduct normal business. Await response from the ED and EC. This will be discussed in next teleconference which is in first week of May.

Matters that the Group would like to bring to the Attention of the Executive Committee:

A request has been made to the EC and ES regarding expenses to conduct normal business. Await response from the ED and EC. This will be discussed in next teleconference which is in first week of May.
